# General Construction

Public Sector

Serving our clients, like we served our country

## About Us

Rupert Construction Services Inc, a Service-Disabled Veteran-Owned Small Business (SDVOSB), specializes in general contracting (GC) services for the public sector as a licensed GC. Our public sector experience spans small, large, and complex projects, nationally and internationally. From scope to completion, we work to deliver all projects on budget and on time while mitigating risk.

With over 25 years of experience leading international and national projects, we are resourced with highly skilled professionals and a large selection of quality driven sub-contractors we regularly work with. Our management templates, processes, and procedures are proven to result in effective project delivery. Our team has the experience and knowledge of working within the public sector for the US Airforce, Army, Navy, Marines, Veterans Affairs and LA Metro, delivering successful projects on budget and on time while mitigating risk.

The success of our business is the direct result of our long-standing client relationships and our strong operating principles:

- **dedication** to the process of delivering projects professionally with our clients' interests at heart;
- ensuring our team is **reliable**, working with our customers and with partner service providers; and
- always acting with **integrity** in a collaborative process.

## Our Services

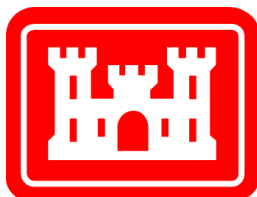

As a licensed general contractor for public works, we endeavor to bring projects from start through to completion, both on schedule and within budget. Our unparalleled service offering includes evaluating and managing subcontractors for quality, reliability and efficiency. The Rupert Construction Services team works with agencies to make sure that specifications and quantities on projects are met and documented correctly to keep the project moving forward on schedule.

Rupert Construction Services is dedicated and committed to working with all agencies to maximize the project value and minimize any potential risks to the completed project and schedule. Enlisting trusted subcontractors for specific cost, constructability and time efficiencies allows our team to provide the best solutions.

We are consistently competitive in pricing with our peers; however, we strive to provide a higher level of service and product. We offer value and act with integrity to surpass your expectations.
